

Hokkaido 300 Series

Decentralized Ventilation System

Product-Nr.: Hokkaido300

Heat Recovery of up to 95%

The Hokkaido 300 Series offers you perfect air exchange and also enables heat recovery of up to 95%. The almost noiseless ventilation system switches between supply and exhaust air at regular intervals, meaning you always experience a pleasant room climate, without any complex piping.

Advantages

- Heat Recovery of up to 95% with minimal power consumption
- Simple Maintenance and easy cleaning
- The only dishwasher safe ventilation device
- Thanks to the innovative motor, it operates quietly and efficiently

Technical Data

Type	Hokkaido 300	
Volume flow	70m ³ /h	
Heat Recovery (acc. EN 13141-8)	95%	
Energy Consumption	1.6Wh	
Relative Energy Consumption	0.02W/m ³ * h	
Mains Voltage	100-240V AC	
Operating Voltage	12V DC	
Regulator Level	Air Performance	Sound Level Difference
1.	16m ³ /h	9db(A) at 16m ³ /h
2.	26m ³ /h	19db(A) at 26m ³ /h
3.	50m ³ /h	35db(A) at 50m ³ /h
4.	70m ³ /h	42db(A) at 70m ³ /h
Weight	5.1kg	
Diameter Fan Unit	153mm	
Required Minimum Wall Thickness	145mm	
Fan Motor Protection Class (IP)	IP68	
Temperature Range	-30, +50°C
